MSM-DC 310 Y - Isn't simply faster — it's better in every way. Larger, yet dramatically handier. More powerful, but remarkably power efficient . With a smooth metal surface that seamlessly meets the new digital stepping motor. It's one continuous form where hardware and drivers function in perfect unison, creating a new generation of high-speed barrier gate that's better by any measure.

Straight Boom Length	2 m - 3 m
Opening and Closing Time	1.2 s
Voltage	220 V / 110 V + _10%
Frequency	60 HZ / 50 HZ
Motor Power Consumption	120 w
Working Temperature	-40 °C To 85 °C
Housing Dimension	1000 (H)* 300 (W)* 240 (D) mm
Base Dimension	347 (W)* 364 (D) mm
Weight Not Including Barrier Boom	75 kgs
Drive	Torque Motor
Maximum Remote Control Distance	30 m

COMPLETENESS :

1. International Brand Coating (AkzoNobel)

2. Motor, Springs, Limited Switch (Work Strong + Stable Working)

3. Pole Protection, Anti-Smashing + Warning

4. Mark Of Attention Safety

5. Control Panel

6. Remote Control

Barrier gate dgn kualitas tinggi barrier gate nice kualitas tinggi barrier gate BFT

GIOTTO

- Unit kontrol yang terletak di posisi yang mudah diakses dan terpisah dari bagian mekanik
- Batasi sistem switch dengan penyesuaian elektronik yang mempercepat instalasi dan memastikan presisi maksimum dalam gerakan.
- Sistem power supply baterai cadangan, diinstal Unit on-board.

Technical drawing

Barrier dengan 24V power supply untuk pembukaan yang jelas hingga 6m dan membuka waktu 4sec. Dampak perlawanan dengan cara Encoder. Abu-abu RAL 7015 +
