

# Tripod Turnstile : Pedestrian Safety Control Bridge Type Swing Barrier Gate

tripod turnstile :  
pedestrian safety control  
bridge type swing barrier  
gate

## Features :

- Cabinet & Internal Structure is in 304 SS grade
- Length of Swing Arm: 1000mm
- Entering passing time in power: 3 second
- Open & closing time: 1 to 2 second
- Passing Speed: 30-40 Persons/Minute
- Transmission Angle of swing arm: 90 degree
- Swing Direction: (Single way/ Double way) optional

## Technical Specifications:

- Outside Housing: Material 304 stainless steel
- Internal Structure: Steel frame structure
- Open Angle: 90°
- Power voltage: AC220 ± 10%, 50Hz
- Drive Motor: DC motor 24V/40W
- Open direction: Single & Double (Optional)
- Gate opening/closing time: 1 ~ 2 second
- IP Degree: IP55
- Width of passage: 1000mm
- Pass speed: 30~40 Person / Minute
- Operation condition: -10oC ~ 60oC
